

2-Layer Lite Compression Bandage System

McKESSON

McKesson 2-layer lite compression bandage system offers consistent, therapeutic compression for patients who require reduced compression levels or cannot tolerate full compression therapy. This non-sterile, two-step system combines a soft padding layer with a cohesive compression bandage featuring a visual diamond indicator that supports accurate application. Air-permeable materials, easy hand-tear application, and up to seven days of wear provide reliable support for managing venous insufficiencies on intact skin, including use for patients with an ankle brachial pressure index (ABPI) of 0.6-0.8.

Features and Benefits

THERAPEUTIC COMPRESSION

Provides sustained therapeutic compression at 30 mmHg for up to seven days when applied as directed

Appropriate for patients who require reduced compression or have limited tolerance for full compression therapy

Supports long-term compression therapy needs

CLINICAL APPLICATION

Redistributes pressure to aid in the management of venous insufficiencies

Suitable for patients with an ABPI of 0.6-0.8

Intended for application on intact skin

APPLICATION ACCURACY

Visual diamond indicator on the cohesive bandage helps ensure proper compression pressure

Two-layer system—

Layer 1: padding

Layer 2: compression bandage—secure, non-slip dressing

COMFORT & WEARABILITY

Air-permeable materials promote breathability and comfort

Provides a non-slip fit to support extended wear

EASE OF USE

Tears easily by hand, eliminating the need for scissors

Cohesive bandage helps both layers stay in place during application

PRODUCT SPECIFICATIONS

Bandage lengths: 4 in x 7.1 yds and 4 in x 6.9 yds

Non-sterile, single-use system

Do not reuse

Not made with natural rubber latex

Ordering Information

E1 #	MFR #	DESCRIPTION	QTY
1276461	16-2000	2-Layer Lite Compression Bandage System, With Diamond Indicator	1/kt, 8 kts/cs
		Layer 1 of 2: Padding, 4 in x 7.1 yds (10 cm x 6.5 m)	
		Redistributes pressure to aid in the management of venous insufficiencies	
		Layer 2 of 2: Compression Bandage, 4 in x 6.9 yds (10 cm x 6.3 m)	
		Provides compression (30 mmHg) and helps keep the bandages in place for up to 7 days
