

McKesson insulin syringes with needle are designed for safe, accurate, and comfortable insulin administration. Intended for use with U-100 insulin only. These single-use syringes feature a permanently attached comfort needle, tapered syringe tip, and plunger tip aligned with scale markings for precise dosing. Each syringe is sterile (EO), non-toxic, non-pyrogenic, and color-coded by gauge for easy identification. A needle shield with a large opening enhances handling, while the 5-year shelf life supports long-term storage in clinical settings.

Features and Benefits

For U-100 Insulin Use Only

Specifically for accurate U-100 insulin administration

Single-Use

Insulin syringe for single use is intended for administration of liquids and drugs into the body

Sterile
