

Sterile Water and Saline

McKesson offers a comprehensive line of sterile irrigation solutions for safe, effective wound care and medical procedures. Available in convenient screw-top bottles, these products include USP Sterile Water for Irrigation and USP Normal Saline (0.9% Sodium Chloride), both clearly labeled and color-coded for easy identification. Each solution is sterile, not for injection, and free from antimicrobial agents and DEHP. Ideal for moistening absorbent dressings, cleaning minor cuts, burns, and abrasions, or for wound debridement and device irrigation. McKesson irrigation solutions are packaged in ready-to-use containers ranging from 100 mL to 1,000 mL, ensuring flexibility for various clinical needs.
