

# MATERIAL SAFETY DATA SHEET

---

## Section I – Identification

---

**Product Name: 8% Sodium Sulfacetamide 4% Sulfur Wash with Green Tea & Aloe**

**MANUFACTURER:** Dermazone Solutions, Inc.  
2440 30<sup>th</sup> Avenue North  
St. Petersburg, FL 33713  
Office Telephone: (727) 446-6882  
Hours: Mon. – Fri. 9:00 – 5:00 EST

**24 HOUR EMERGENCY TELEPHONE NUMBERS:**  
**CHEMTREC (800) 424-9300**

---

## Section II – Composition

---

| <u>Component Name</u> | <u>Avg. % by Wt.</u> | <u>CAS No.</u> | <u>OSHA PEL</u> | <u>AGGIH TLV</u> |
|-----------------------|----------------------|----------------|-----------------|------------------|
|-----------------------|----------------------|----------------|-----------------|------------------|

There are NO known hazardous substances contained in this product.

See Section 11 for more information.

---

## Section III – Hazard Identification

---

### Potential Health Effects

Routes of Exposure: Skin Contact, Inhalation, Ingestion, Eye Contact

#### Acute Exposure

**Skin Contact:** No adverse effects known.

**Inhalation:** No adverse effects known.

**Ingestion:** No adverse effects known.

**Eye Contact:** May be irritating to the eyes.

---

#### Skin Contact

Wash with water and soap.

#### Inhalation

Remove from contaminated atmosphere and seek medical attention if respiratory irritation occurs.

#### Ingestion

Wash out mouth with water and contact a physician.

#### Eye Contact

Rinse with plenty of water.

---

## Section V – Fire Fighting Measures

---

NFPA: Health 0, Fire 0, Reactivity 0

### **Extinguishing Media**

Use standard firefighting techniques.

### **Special Fire Fighting Precautions/Instructions**

As with all fires, evacuate personnel to safe area.  
Firefighters should use self-contained breathing equipment and  
Protective clothing.  
Dust/air mixtures may ignite or explode.

### **Unusual Fire and Explosion Hazards**

None known.

### **Protection of Firefighters**

According to size of fire.

---

## Section VI – Accidental Release Measures

---

### **Personal Precautions**

Avoid that the product build up static electricity.  
Make sure all personnel involved in the spill area follow good industrial hygiene practices.  
Use a suitable dust respirator (P2).

### **Environmental Precautions**

The product is soluble in water.  
Isolate contaminated area.

### **Method of Cleaning Up**

Sweep up (wet mopping) or remove the substance by special cleaner.

---

## Section VII – Handling and Storage

---

### **Handling**

Handle and open with care. Avoid static electricity

### **Storage**

Store at room temperature.

## Section VIII – Exposure Controls and Personal Protection

---

### **Engineering Controls**

Not applicable.

### **Personal Protection**

**Skin Contact:** Wear chemical resistant gloves.

**Inhalation:** Use a suitable dust respirator (P2).

**Eye:** Avoid contact with eyes.

---

## Section IX – Physical and Chemical Properties

---

|                               |                                          |
|-------------------------------|------------------------------------------|
| Appearance:                   | White to Light Yellow Topical Suspension |
| Physical State:               | Wash                                     |
| Odor:                         | Mild                                     |
| Specific Gravity (water = 1): | .95 – 1.0                                |
| Vapor Density (air = 1):      | N/A                                      |
| Solubility in Water:          | Soluble                                  |
| pH:                           | 6.5-7.5                                  |

---

## Section X – Stability and Reactivity

---

### **Stability**

The product is stable under normal conditions and temperatures.

### **Conditions to Avoid**

None.

### **Hazardous Decomposition Products**

When heated to decomposition material emits irritating and toxic fumes of NO<sub>x</sub> and SO<sub>x</sub>.

---

## Section XI – Toxicological Information

---

### **Effects of Exposure**

#### **Skin Contact**

Allergic reactions.

#### **Inhalation**

Respiratory irritation occurs.

#### **Ingestion**

Expected to be a low ingestion hazard.

#### **Eye Contact**

Could cause irritation.

---

## **Section XII – Ecological Information**

---

When diluted with a large amount of water (330g/l), this material released directly or indirectly into the environment is not expected to have significant impact.

---

## **Section XIII – Disposal Considerations**

---

All recovered material should be packaged, labeled, transported and disposed of in conformance with applicable federal, state, or local laws and regulations and in conformance with good engineering practices.

---

## **Section XIV – Transportation Information**

---

Land – Road/Railway: This product is not classified according to ADR/RID.  
Inland Waterways: This product is not classified according to ADNMR.  
Sea: This product is not classified according to IMDG.  
Air: This product is not classified according to IATA.  
National Transport Regulations: Not regulated as a hazardous material.

---

## **Section XV – Regulatory Information**

---

### **United States**

Not subject to hazard symbol.

---

## **Section XVI – Other Information**

---

Current Issue Date: December 09, 2010

Previous Issue Date: New
