中文:

3E公司已与供货商确认，本产品没有SDS。 **3E公司将会定期与供**货商联系，重新确认本产品没有SDS。

TO: Our Customers

FROM: American Health Packaging

SUBJECT: Tablets and Capsules Safety Data Sheet Requirements

PRODUCT NAME: Gabapentin Capsule 100mg, 300mg, & 400mg 100UD

RELEASE DATE: 11/16/2020

This is to advise you that tablets and capsules, packaged in final form for patient use, are exempt from the requirements of the Occupational Health and Safety Administration (OSHA) Hazard Communication Standard (29 CFR 1910.1200). Hence, a Safety Data Sheet (SDS) is not required for these types of products. American Health Packaging will therefore generally not provide an SDS for tablet and capsule products.

Pharmaceutical products that would be covered if they meet OSHA hazard criteria include liquids, semi-solids (creams, ointments, or lotions), powders, and aerosols. OSHA hazard classes cover both health hazards (e.g., highly toxic or sensitizer) and physical hazards (e.g., flammable liquid). Information concerning adverse reactions that may occur after exposure to therapeutic doses of our formulated products, including tablets and capsules, is indicated in the package insert, which is supplied with all of our products, and is also available in published literature.

We hope this information is helpful to you. If you require additional information you may contact us at 877-302-7495 or by email at customersupport@americanhealthpackaging.com.
