1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY

**Product Identifier**

**Product Name:** EpiPen® and EpiPen® Jr  
**Synonyms:** Epinephrine Auto-Injector

**Intended Use Of The Product**

Pharmaceutical. For emergency treatment of severe allergic reaction or anaphylaxis. Use only as directed. Refer to product insert for usage instructions and product information.

**Name, Address, And Telephone Of The Responsible Party**

**Supplier:** Mylan Specialty L.P.  
110 Allen Road  
Basking Ridge, NJ 07920, USA  
http://www.mylanspecialty.com/  
+1 877-446-3679

**Manufacturer:** Meridian Medical Technologies, a Pfizer company  
Columbia, MD 21046 U.S.A

**Emergency Telephone Number**

**Emergency Number:** 877-446-3679

2. HAZARDS IDENTIFICATION

**Patients/Consumers:** Please refer to the product information insert or product label for appropriate consumer-specific information about this product when used according to the physician’s directions. Pharmaceutical Agent – Handling of this product in its final form presents minimal occupational exposure risk.

**Classification Of The Substance Or Mixture**

**Classification (GHS-US):** Not classified

**Label Elements**

**GHS-US Labeling:** Not applicable

**Other Hazards:** Not available

**Unknown Acute Toxicity (GHS US):** Not available

3. COMPOSITION/INFORMATION ON INGREDIENTS

**Mixture**

4. **FIRST AID MEASURES**

**Description Of First Aid Measures**

**General**: Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show label if possible).

**Inhalation**: The risk of inhalation exposure is negligible when product is in its final packaged form. If exposed and become symptomatic, move to fresh air and get medical attention if symptoms persist.

**Skin Contact**: Basic hygiene and appropriate precautions should prevent skin contact. If skin contact occurs, wash affected area with soap and water for at least 15 minutes. Should skin irritation, allergic reaction, or rash occur, remove contaminated clothing (if required) and seek medical advice.

**Eye Contact**: The risk of eye exposure is negligible when product is in its final packaged form. If eye contact occurs, flush immediately with water for at least 15 minutes. If easy to do, remove contact lenses. Get medical attention.

**Ingestion**: Ingestion is not an anticipated route of exposure. If accidental ingestion occurs, flush mouth out with water and get medical attention.

**Most Important Symptoms And Effects Both Acute and Delayed**

**General**: Effects reported during consumer use include palpitations, tachycardia, sweating, nausea, vomiting, respiratory difficulty, pallor, dizziness, weakness, tremor, headache, apprehension, nervousness and anxiety.

**Inhalation**: Inhalation of vapor and/or mist may cause respiratory irritation and sensitization.

**Skin Contact**: May cause skin irritation and sensitization. This product contains sodium metabisulfite, a sulfite that may cause allergic-type reactions.

**Eye Contact**: May cause eye irritation.

**Ingestion**: May cause nausea, vomiting and diarrhea.

**Injection**: Epinephrine is a strong vasoconstrictor; therefore accidental injection into the digits, hands or feet may result in loss of blood flow to the affected area. Large doses or accidental intravenous injection may result in cerebral hemorrhage due to sharp rise in blood pressure. This product contains sodium metabisulfite, a sulfite that may cause allergic-type reactions.

**Indication Of Any Immediate Medical Attention And Special Treatment Needed**

If exposed or concerned, get medical advice and attention. In the event of accidental injection, go immediately to the nearest emergency room.

5. **FIREFIGHTING MEASURES**

**Extinguishing Media**

**Suitable Extinguishing Media**: Use extinguishing media appropriate for surrounding fire.

**Unsuitable Extinguishing Media**: Do not use a heavy water stream.

**Special Hazards Arising From The Substance Or Mixture**

**Fire Hazard**: Not flammable

**Explosion Hazard**: Product is not explosive

**Reactivity**: Hazardous reactions will not occur under normal conditions.

**Advice For Firefighters**

**Firefighting Instructions**: Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire. Do not allow run-off from fire fighting to enter drains or water courses.

**Protection During Firefighting**: Do not enter fire area without proper protective equipment, including respiratory protection.

**Hazardous Combustion Products**: Not available

**Other Information**: Refer to Section 9 for flammability properties.

6. **ACCIDENTAL RELEASE MEASURES**

**Personal Precautions, Protective Equipment And Emergency Procedures**

**General Measures**: Avoid all eye and skin contact and do not breathe vapor and mist.

**For Non-Emergency Personnel**

**Protective Equipment**: Use appropriate personal protection equipment (PPE).

**Emergency Procedures**: Evacuate unnecessary personnel.

**For Emergency Personnel**

**Protective Equipment**: Equip cleanup crew with proper protection.

**Environmental Precautions**

Prevent entry to sewers and public waters.
Methods And Material For Containment And Cleaning Up

Methods For Cleaning Up: For small quantities associated with normal therapeutic use, collect spillage and transfer to a closed waste container for disposal. For large or bulk quantities, after absorption with inert material, collect spillage by sweeping up spilled material and place in a labeled, sealed container for proper disposal.

Reference To Other Sections
See Heading 8, Exposure Controls and Personal Protection.

7. HANDLING AND STORAGE

Precautions For Safe Handling

Patients/Consumers: Patients should adhere to the instructions provided within the product information insert or product label for appropriate consumer-specific information about this product when used according to the physician’s directions.

Hygiene Measures: This SDS is for a pharmaceutical agent – Handling of this product in its final form presents minimal occupational exposure risk. In an occupational setting, handle in accordance with good industrial hygiene and safety procedures. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Use appropriate personal protective equipment when handling and observe good personal hygiene measures after handling.

Conditions For Safe Storage, Including Any Incompatibilities

Storage Conditions: Keep container closed when not in use. Keep away from heat and direct sunlight. Do not refrigerate.

Storage Temperature: 20-25°C (68-77°F)

Special Rules on Packaging: Examine clear window of autoinjector unit periodically. Solution should be clear. If the solution is discolored or contains solid particles (precipitate), replace the unit.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Control Parameters

<table>
<thead>

</tbody>
</table>

Exposure Controls

Appropriate Engineering Controls: Not generally required. Site-specific risk assessments should be conducted to determine the appropriate exposure control measures. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits.

Personal Protective Equipment: Not generally required when using this product. The use of personal protective equipment may be necessary as conditions warrant.

Hand Protection: Not required for normal conditions of use

Eye Protection: In laboratory, medical or industrial settings, or operations in which airborne particulates will be generated, safety glasses with side shields are recommended.

Skin and Body Protection: In laboratory, medical or industrial settings, impervious disposable gloves and protective clothing are recommended if skin contact with drug product is possible.

Respiratory Protection: When manufacturing or handling product in large quantities and dusts or particulates may be generated, maintain airborne concentrations below recommended limits. Workplace risk assessments should be completed before specifying and implementing respirator usage. NIOSH/MSHA approved respirators for protection should be used if respirators are found to be necessary.

9. PHYSICAL AND CHEMICAL PROPERTIES

</tbody>
</table>
Decomposition temperature: Not available
Flammability (solid, gas): Not available
Lower flammable limit: Not available
Upper flammable limit: Not available
Vapor pressure: Not available
Relative vapor density at 20 °C: Not available
Relative density: ≈ 1 (water=1)
Specific gravity density: Not available
Solubility: Soluble in water.
Log Pow: Not available
Log Kow: Not available
Viscosity, kinematic: Not available
Explosion data - sensitivity to mechanical impact: Not available
Explosion data - sensitivity to static discharge: Not available

10. STABILITY AND REACTIVITY

Reactivity: Hazardous reactions will not occur under normal conditions.
Chemical Stability: Stable under normal conditions.
Possibility Of Hazardous Reactions: Hazardous polymerization will not occur.
Conditions To Avoid: Direct sunlight. Extremely high or low temperatures. Epinephrine deteriorates rapidly on exposure to air or light.

11. TOXICOLOGICAL INFORMATION

Information On Toxicological Effects - Product
Acute Toxicity: Not classified
LD50 and LC50 Data: Not available
Skin corrosion/irritation: Not classified (pH: 2.2 – 5)
Serious eye damage/irritation: Not classified (pH: 2.2 – 5)
Respiratory or skin sensitization: Not classified
Germ cell mutagenicity: Not classified
Teratogenicity: Not classified
Carcinogenicity: Not classified
Reproductive toxicity: Not classified
Specific target organ toxicity (single exposure): Not classified
Specific target organ toxicity (repeated exposure): Not classified

12. ECOLOGICAL INFORMATION

Toxicity

**Sodium chloride (7647-14-5)**
- LC50 fish 1: 5560 - 6080 mg/l (Exposure time: 96 h - Species: Lepomis macrochirus [flow-through])
- EC50 Daphnia 1: 1000 mg/l (Exposure time: 48 h - Species: Daphnia magna)
- LC50 fish 2: 12946 mg/l (Exposure time: 96 h - Species: Lepomis macrochirus [static])
- EC50 Daphnia 2: 340.7 - 469.2 mg/l (Exposure time: 48 h - Species: Daphnia magna [Static])

**Sodium metabisulfite (7681-57-4)**
- LC50 fish 1: 32 mg/l (Exposure time: 96 h - Species: Lepomis macrochirus [static])
- EC50 Daphnia 1: 89 mg/l (Exposure time: 24 h - Species: Daphnia magna Straus)
- EC50 other aquatic organisms 1: 48 mg/l (Exposure time: 72 h - Species: Desmodesmus subspicatus)
- EC50 other aquatic organisms 2: 40 mg/l (Exposure time: 96 h - Species: Desmodesmus subspicatus)

Persistence And Degradability

**EpiPen® and EpiPen® Jr**
- Persistence and degradability: Not established.

Bioaccumulative Potential

**EpiPen® and EpiPen® Jr**
- Bioaccumulative potential: Not established.

**Sodium chloride (7647-14-5)**
- BCF fish 1: (no bioaccumulation)

**Sodium metabisulfite (7681-57-4)**
- Log Pow: -3.7 (at 25 °C)

13. DISPOSAL CONSIDERATIONS

**Sewage Disposal Recommendations:** Do not empty into drains.

**Waste Disposal Recommendations:** Dispose of waste material in accordance with all local, regional, national, provincial, territorial and international regulations.

**Additional Information:** Contaminated sharps should be discarded immediately or as soon as possible in containers that are closable, puncture-resistant, leak proof on sides and bottoms, and appropriately labeled. Contact your local health department for referral to a Safe Syringe Disposal Program.

14. TRANSPORT INFORMATION

**In accordance with ICAO/IATA/DOT/TDG**
- UN Number: Not available
- UN Proper Shipping Name: Not available

15. REGULATORY INFORMATION

Canadian regulations

Water (7732-18-5)

Listed on the Canadian DSL (Domestic Substances List) inventory.
WHMIS Classification | Uncontrolled product according to WHMIS classification criteria

Sodium chloride (7647-14-5)

Listed on the Canadian DSL (Domestic Substances List) inventory.
WHMIS Classification | Uncontrolled product according to WHMIS classification criteria

Sodium metabisulfite (7681-57-4)

Listed on the Canadian DSL (Domestic Substances List) inventory.
WHMIS Classification

Uncontrolled product according to WHMIS classification criteria

Epinephrine (51-43-4)

Listed on the Canadian DSL (Domestic Substances List) inventory.

This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations (CPR) and the MSDS contains all of the information required by CPR.

16. OTHER INFORMATION

Indication of Changes: Revision date 2/25/2013

Data Sources: This document has been prepared in accordance with the SDS requirements of the OSHA Hazard Communication Standard 29 CFR 1910.1200.

Other Information: This document has been prepared in accordance with standards for workplace safety. The precautionary statements and warnings included might not apply in all cases. Your needs may vary depending on the potential for exposure in your workplace.

This MSDS has been prepared for occupational exposure and intended to address some end-user concerns; however, patients/consumers are also strongly encouraged to review the product information insert or product label for consumer-specific information about this product. Patients/Consumers: Refer to the package insert or product label for appropriate consumer-specific information about this product when used according to manufacturer’s directions.

To the best of our knowledge, the information contained herein is accurate. However, neither the above named supplier nor any of its subsidiaries assumes any liability whatsoever for completeness of the information herein. Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that exist.
