

SAFETY DATA SHEET

SIEMENS

ADVIA® Chemistry GGT Reagents

**MSDS
no.**

07498649

Section 1. Identification

GHS product identifier	: ADVIA® Chemistry GGT Reagents
Product code	: 07498649; 02011954; B01-4138-01; 10316298; 10309495
Other means of identification	: ADVIA® Chemistry GGT Buffer B01-4298-01 ADVIA® Chemistry GGT Substrate B01-4299-01
Product type	: Liquid.

Relevant identified uses of the substance or mixture and uses advised against

Not applicable.

Manufactured/supplied	: Siemens Healthcare Diagnostics Inc. 511 Benedict Avenue Tarrytown, NY 10591-5097 USA 1-877-229-3711 (800) 424-9300 (CHEMTREC) (24/365)
------------------------------	--

Section 2. Hazards identification

OSHA/HCS status	: ADVIA® Chemistry GGT Buffer ADVIA® Chemistry GGT Substrate	This material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200). This material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).
Classification of the substance or mixture	: ADVIA® Chemistry GGT Buffer ADVIA® Chemistry GGT Substrate Sodium azide may react with lead or copper plumbing to form highly explosive metal azides.	Not classified. Not classified.
GHS label elements		
Signal word	: ADVIA® Chemistry GGT Buffer ADVIA® Chemistry GGT Substrate	No signal word. No signal word.
Hazard statements	: ADVIA® Chemistry GGT Buffer ADVIA® Chemistry GGT Substrate	No known significant effects or critical hazards. No known significant effects or critical hazards.
Precautionary statements		
Prevention	: ADVIA® Chemistry GGT Buffer ADVIA® Chemistry GGT Substrate	Not applicable. Not applicable.
Response	: ADVIA® Chemistry GGT Buffer ADVIA® Chemistry GGT Substrate	Not applicable. Not applicable.
Storage	: ADVIA® Chemistry GGT Buffer ADVIA® Chemistry GGT Substrate	Not applicable. Not applicable.
Disposal	: ADVIA® Chemistry GGT Buffer ADVIA® Chemistry GGT Substrate	Not applicable. Not applicable.
Supplemental label elements	: ADVIA® Chemistry GGT Buffer ADVIA® Chemistry GGT Substrate	None known. None known.
Hazards not otherwise classified	: ADVIA® Chemistry GGT Buffer ADVIA® Chemistry GGT Substrate	None known. None known.

Section 3. Composition/information on ingredients

Substance/mixture : ADVIA® Chemistry GGT Buffer Mixture
ADVIA® Chemistry GGT Substrate Mixture

Ingredient name	%	CAS number
ADVIA® Chemistry GGT Buffer N-glycylglycine	4.2	556-50-3

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

Description of necessary first aid measures

Eye contact	: ADVIA® Chemistry GGT Buffer	Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
	ADVIA® Chemistry GGT Substrate	Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
Inhalation	: ADVIA® Chemistry GGT Buffer	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.
	ADVIA® Chemistry GGT Substrate	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
Skin contact	: ADVIA® Chemistry GGT Buffer	Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
	ADVIA® Chemistry GGT Substrate	Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
Ingestion	: ADVIA® Chemistry GGT Buffer	Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.
	ADVIA® Chemistry GGT Substrate	Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by

Section 4. First aid measures

medical personnel. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed

Potential acute health effects

Eye contact	: ADVIA® Chemistry GGT Buffer	No known significant effects or critical hazards.
	ADVIA® Chemistry GGT Substrate	No known significant effects or critical hazards.
Inhalation	: ADVIA® Chemistry GGT Buffer	Exposure to decomposition products may cause a health hazard. Serious effects may be delayed following exposure.
	ADVIA® Chemistry GGT Substrate	No known significant effects or critical hazards.
Skin contact	: ADVIA® Chemistry GGT Buffer	No known significant effects or critical hazards.
	ADVIA® Chemistry GGT Substrate	No known significant effects or critical hazards.
Ingestion	: ADVIA® Chemistry GGT Buffer	No known significant effects or critical hazards.
	ADVIA® Chemistry GGT Substrate	No known significant effects or critical hazards.

Over-exposure signs/symptoms

Eye contact	: ADVIA® Chemistry GGT Buffer	No specific data.
	ADVIA® Chemistry GGT Substrate	No specific data.
Inhalation	: ADVIA® Chemistry GGT Buffer	No specific data.
	ADVIA® Chemistry GGT Substrate	No specific data.
Skin contact	: ADVIA® Chemistry GGT Buffer	No specific data.
	ADVIA® Chemistry GGT Substrate	No specific data.
Ingestion	: ADVIA® Chemistry GGT Buffer	No specific data.
	ADVIA® Chemistry GGT Substrate	No specific data.

Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician	: In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.
Specific treatments	: No specific treatment.
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training.

See toxicological information (Section 11)

Section 5. Fire-fighting measures

Extinguishing media

Suitable extinguishing media	: In case of fire, use water spray (fog), foam or dry chemical.
Unsuitable extinguishing media	: None known.

Specific hazards arising from the chemical : In a fire or if heated, a pressure increase will occur and the container may burst.

Hazardous thermal decomposition products	: Decomposition products may include the following materials: carbon dioxide carbon monoxide nitrogen oxides
---	---

Section 5. Fire-fighting measures

- Special protective actions for fire-fighters** : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
- Special protective equipment for fire-fighters** : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

- For non-emergency personnel** : No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.
- For emergency responders** : If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
- Environmental precautions** : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

Methods and materials for containment and cleaning up

- Small spill** : Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
- Large spill** : Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

Section 7. Handling and storage

Precautions for safe handling

- Protective measures** : Put on appropriate personal protective equipment (see Section 8).
- Advice on general occupational hygiene** : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
- Conditions for safe storage, including any incompatibilities** : Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

Section 8. Exposure controls/personal protection

Control parameters

Occupational exposure limits

None.

- Appropriate engineering controls** : Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

Section 8. Exposure controls/personal protection

Environmental exposure controls : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Individual protection measures

Hygiene measures : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

Eye/face protection : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.

Skin protection

Hand protection : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

Body protection : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Other skin protection : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Respiratory protection : Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

Section 9. Physical and chemical properties

Physical state	: ADVIA® Chemistry GGT Buffer ADVIA® Chemistry GGT Substrate	Liquid. Liquid.
Color	: ADVIA® Chemistry GGT Buffer ADVIA® Chemistry GGT Substrate	Colorless. Colorless.
Odor	: ADVIA® Chemistry GGT Buffer ADVIA® Chemistry GGT Substrate	Odorless. Odorless.
pH	: ADVIA® Chemistry GGT Buffer ADVIA® Chemistry GGT Substrate	7.7 Not applicable.
Flash point	: ADVIA® Chemistry GGT Buffer ADVIA® Chemistry GGT Substrate	Not available. Not available.
Flammability (solid, gas)	: ADVIA® Chemistry GGT Buffer ADVIA® Chemistry GGT Substrate	Not available. Not available.
Relative density	: ADVIA® Chemistry GGT Buffer ADVIA® Chemistry GGT Substrate	1 1
Solubility in water	: ADVIA® Chemistry GGT Buffer ADVIA® Chemistry GGT Substrate	Not available. Not available.
Partition coefficient: n-octanol/water	: ADVIA® Chemistry GGT Buffer ADVIA® Chemistry GGT Substrate	Not available. Not available.
Auto-ignition temperature	: ADVIA® Chemistry GGT Buffer ADVIA® Chemistry GGT Substrate	Not available. Not available.
Viscosity	: ADVIA® Chemistry GGT Buffer ADVIA® Chemistry GGT Substrate	Not available. Not available.

Section 10. Stability and reactivity

Reactivity	: ADVIA® Chemistry GGT Buffer	No specific test data related to reactivity available for this product or its ingredients.
	ADVIA® Chemistry GGT Substrate	No specific test data related to reactivity available for this product or its ingredients.
Chemical stability	: ADVIA® Chemistry GGT Buffer	The product is stable.
	ADVIA® Chemistry GGT Substrate	The product is stable.
Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.	
Conditions to avoid	: No specific data.	
Incompatible materials	: No specific data.	
Hazardous decomposition products	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.	

Section 11. Toxicological information

Information on toxicological effects

Acute toxicity

Not available.

Conclusion/Summary	: ADVIA® Chemistry GGT Buffer	Not available.
	ADVIA® Chemistry GGT Substrate	Not available.

Irritation/Corrosion

Not available.

Conclusion/Summary

Skin	: ADVIA® Chemistry GGT Buffer	Not available.
	ADVIA® Chemistry GGT Substrate	Not available.
Eyes	: ADVIA® Chemistry GGT Buffer	Not available.
	ADVIA® Chemistry GGT Substrate	Not available.
Respiratory	: ADVIA® Chemistry GGT Buffer	Not available.
	ADVIA® Chemistry GGT Substrate	Not available.

Sensitization

Not available.

Conclusion/Summary

Skin	: ADVIA® Chemistry GGT Buffer	Not available.
	ADVIA® Chemistry GGT Substrate	Not available.
Respiratory	: ADVIA® Chemistry GGT Buffer	Not available.
	ADVIA® Chemistry GGT Substrate	Not available.

Mutagenicity

Not available.

Conclusion/Summary	: ADVIA® Chemistry GGT Buffer	Not available.
	ADVIA® Chemistry GGT Substrate	Not available.

Carcinogenicity

Not available.

Conclusion/Summary	: ADVIA® Chemistry GGT Buffer	Not available.
	ADVIA® Chemistry GGT Substrate	Not available.

Reproductive toxicity

Not available.

Section 11. Toxicological information

Conclusion/Summary : ADVIA® Chemistry GGT Buffer Not available.
ADVIA® Chemistry GGT Substrate Not available.

Teratogenicity

Not available.

Conclusion/Summary : ADVIA® Chemistry GGT Buffer Not available.
ADVIA® Chemistry GGT Substrate Not available.

Specific target organ toxicity (single exposure)

Not available.

Specific target organ toxicity (repeated exposure)

Not available.

Aspiration hazard

Not available.

Information on the likely routes of exposure : Not available.

Potential acute health effects

Eye contact	: ADVIA® Chemistry GGT Buffer	No known significant effects or critical hazards.
	ADVIA® Chemistry GGT Substrate	No known significant effects or critical hazards.
Inhalation	: ADVIA® Chemistry GGT Buffer	Exposure to decomposition products may cause a health hazard. Serious effects may be delayed following exposure.
	ADVIA® Chemistry GGT Substrate	No known significant effects or critical hazards.
Skin contact	: ADVIA® Chemistry GGT Buffer	No known significant effects or critical hazards.
	ADVIA® Chemistry GGT Substrate	No known significant effects or critical hazards.
Ingestion	: ADVIA® Chemistry GGT Buffer	No known significant effects or critical hazards.
	ADVIA® Chemistry GGT Substrate	No known significant effects or critical hazards.

Symptoms related to the physical, chemical and toxicological characteristics

Eye contact	: ADVIA® Chemistry GGT Buffer	No specific data.
	ADVIA® Chemistry GGT Substrate	No specific data.
Inhalation	: ADVIA® Chemistry GGT Buffer	No specific data.
	ADVIA® Chemistry GGT Substrate	No specific data.
Skin contact	: ADVIA® Chemistry GGT Buffer	No specific data.
	ADVIA® Chemistry GGT Substrate	No specific data.
Ingestion	: ADVIA® Chemistry GGT Buffer	No specific data.
	ADVIA® Chemistry GGT Substrate	No specific data.

Delayed and immediate effects and also chronic effects from short and long term exposure

Short term exposure

Potential immediate effects	: ADVIA® Chemistry GGT Buffer	Not available.
	ADVIA® Chemistry GGT Substrate	Not available.
Potential delayed effects	: ADVIA® Chemistry GGT Buffer	Not available.
	ADVIA® Chemistry GGT Substrate	Not available.

Long term exposure

Potential immediate effects	: ADVIA® Chemistry GGT Buffer	Not available.
	ADVIA® Chemistry GGT Substrate	Not available.

Section 11. Toxicological information

Potential delayed effects : ADVIA® Chemistry GGT Buffer Not available.
ADVIA® Chemistry GGT Substrate Not available.

Potential chronic health effects

Not available.

Conclusion/Summary : Not available. ADVIA® Chemistry GGT Buffer
Not available. ADVIA® Chemistry GGT Substrate

General : No known significant effects or critical hazards.

Carcinogenicity : No known significant effects or critical hazards.

Mutagenicity : No known significant effects or critical hazards.

Teratogenicity : No known significant effects or critical hazards.

Developmental effects : No known significant effects or critical hazards.

Fertility effects : No known significant effects or critical hazards.

Numerical measures of toxicity

Acute toxicity estimates

Not available.

Interactive effects : ADVIA® Chemistry GGT Buffer Not available.
ADVIA® Chemistry GGT Substrate Not available.

Other information : ADVIA® Chemistry GGT Buffer Not available.
ADVIA® Chemistry GGT Substrate Not available.

Section 12. Ecological information

Toxicity

Not available.

Conclusion/Summary : ADVIA® Chemistry GGT Buffer Not available.
ADVIA® Chemistry GGT Substrate Not available.

Persistence and degradability

Conclusion/Summary : ADVIA® Chemistry GGT Buffer Not available.
ADVIA® Chemistry GGT Substrate Not available.

Bioaccumulative potential

Product/ingredient name	LogP _{ow}	BCF	Potential
ADVIA® Chemistry GGT Buffer N-glycylglycine	-2.92	-	low

Mobility in soil

Soil/water partition coefficient (K_{oc}) : ADVIA® Chemistry GGT Buffer Not available.
ADVIA® Chemistry GGT Substrate Not available.

Mobility : ADVIA® Chemistry GGT Buffer Not available.
ADVIA® Chemistry GGT Substrate Not available.

Other adverse effects : No known significant effects or critical hazards.

Section 13. Disposal considerations

Disposal methods : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Sodium azide may react with lead or copper plumbing to form highly explosive metal azides.
