

SAFETY DATA SHEET

SIEMENS

Wash Cartridge

**MSDS
no.**

03913056

Section 1. Identification

GHS product identifier : Wash Cartridge

Product code : 03913056, 10319817

Other means of identification : RCX Reagent 119866, 10485269
RL1200 Wash Reagent 132915

Product type : Liquid.

Relevant identified uses of the substance or mixture and uses advised against

Not applicable.

Manufactured/supplied : Siemens Healthcare Diagnostics Inc.
511 Benedict Avenue
Tarrytown, NY 10591-5097 USA
1-877-229-3711
(800) 424-9300 (CHEMTREC) (24/365)

Section 2. Hazards identification

OSHA/HCS status : RCX Reagent This material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).
RL1200 Wash Reagent This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).

Classification of the substance or mixture : RCX Reagent Not classified.
RL1200 Wash Reagent SKIN SENSITIZATION - Category 1

GHS label elements

Hazard pictograms

Signal word : RCX Reagent No signal word.
RL1200 Wash Reagent Warning

Hazard statements : RCX Reagent No known significant effects or critical hazards.
RL1200 Wash Reagent H317 - May cause an allergic skin reaction.

Precautionary statements

Prevention : RCX Reagent Not applicable.
RL1200 Wash Reagent P272 - Contaminated work clothing should not be allowed out of the workplace.
P280 - Wear protective gloves/protective clothing/eye protection/face protection.

Response : RCX Reagent Not applicable.
RL1200 Wash Reagent P302 + P352 + P363 - IF ON SKIN: Wash with plenty of soap and water. Wash contaminated clothing before reuse.
P333 + P313 - If skin irritation or rash occurs: Get medical attention.

Section 2. Hazards identification

Storage	: RCX Reagent RL1200 Wash Reagent	Not applicable. Not applicable.
Disposal	: RCX Reagent RL1200 Wash Reagent	Not applicable. P501 - Dispose of contents and container in accordance with all local, regional, and national regulations.
Supplemental label elements	: RCX Reagent RL1200 Wash Reagent	None known. None known.
Hazards not otherwise classified	: RCX Reagent RL1200 Wash Reagent	None known. None known.

Section 3. Composition/information on ingredients

Substance/mixture	: RCX Reagent RL1200 Wash Reagent	Mixture Mixture
--------------------------	--------------------------------------	--------------------

Ingredient name	%	CAS number
RL1200 Wash Reagent reaction mass of: 5-chloro-2-methyl-4-isothiazolin-3-one [EC no. 247-500-7] and 2-methyl-2H-isothiazol-3-one [EC no. 220-239-6] (3:1)	0.003	55965-84-9

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

Description of necessary first aid measures

Eye contact	: RCX Reagent	Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
	RL1200 Wash Reagent	Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention if irritation occurs.
Inhalation	: RCX Reagent	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
	RL1200 Wash Reagent	Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention if adverse health effects persist or are severe. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

Section 4. First aid measures

Skin contact	: RCX Reagent	Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
	RL1200 Wash Reagent	Wash with plenty of soap and water. Remove contaminated clothing and shoes. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. Continue to rinse for at least 10 minutes. Get medical attention. In the event of any complaints or symptoms, avoid further exposure. Wash clothing before reuse. Clean shoes thoroughly before reuse.
Ingestion	: RCX Reagent	Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.
	RL1200 Wash Reagent	Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention if adverse health effects persist or are severe. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
<u>Most important symptoms/effects, acute and delayed</u>		
<u>Potential acute health effects</u>		
Eye contact	: RCX Reagent	No known significant effects or critical hazards.
	RL1200 Wash Reagent	No known significant effects or critical hazards.
Inhalation	: RCX Reagent	No known significant effects or critical hazards.
	RL1200 Wash Reagent	No known significant effects or critical hazards.
Skin contact	: RCX Reagent	No known significant effects or critical hazards.
	RL1200 Wash Reagent	May cause an allergic skin reaction.
Ingestion	: RCX Reagent	No known significant effects or critical hazards.
	RL1200 Wash Reagent	No known significant effects or critical hazards.

Section 4. First aid measures

Over-exposure signs/symptoms

Eye contact	: RCX Reagent RL1200 Wash Reagent	No specific data. No specific data.
Inhalation	: RCX Reagent RL1200 Wash Reagent	No specific data. No specific data.
Skin contact	: RCX Reagent RL1200 Wash Reagent	No specific data. Adverse symptoms may include the following: irritation redness
Ingestion	: RCX Reagent RL1200 Wash Reagent	No specific data. No specific data.

Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician	: Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Specific treatments	: No specific treatment.
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

See toxicological information (Section 11)

Section 5. Fire-fighting measures

Extinguishing media

Suitable extinguishing media	: In case of fire, use water spray (fog), foam or dry chemical.
Unsuitable extinguishing media	: None known.
Specific hazards arising from the chemical	: In a fire or if heated, a pressure increase will occur and the container may burst.
Hazardous thermal decomposition products	: No specific data.
Special protective actions for fire-fighters	: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
Special protective equipment for fire-fighters	: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

For non-emergency personnel	: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.
For emergency responders	: If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

Section 6. Accidental release measures

Environmental precautions : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

Methods and materials for containment and cleaning up

- Small spill** : Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
- Large spill** : Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

Section 7. Handling and storage

Precautions for safe handling

- Protective measures** : Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Do not get in eyes or on skin or clothing. Do not ingest. Avoid breathing vapor or mist. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.
- Advice on general occupational hygiene** : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
- Conditions for safe storage, including any incompatibilities** : Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

Section 8. Exposure controls/personal protection

Control parameters

Occupational exposure limits

None.

- Appropriate engineering controls** : Good general ventilation should be sufficient to control worker exposure to airborne contaminants.
- Environmental exposure controls** : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Individual protection measures

- Hygiene measures** : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

Section 8. Exposure controls/personal protection

- Eye/face protection** : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.
- Skin protection**
- Hand protection** : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.
- Body protection** : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
- Other skin protection** : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
- Respiratory protection** : Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

Section 9. Physical and chemical properties

Physical state	: RCX Reagent RL1200 Wash Reagent	Liquid. Liquid.
Color	: RCX Reagent RL1200 Wash Reagent	Red. Colorless.
Odor	: RCX Reagent RL1200 Wash Reagent	Odorless. Odorless.
pH	: RCX Reagent RL1200 Wash Reagent	6.8 6.5 to 6.8
Flash point	: RCX Reagent RL1200 Wash Reagent	[Product does not sustain combustion.] Not available.
Flammability (solid, gas)	: RCX Reagent RL1200 Wash Reagent	Not available. Not available.
Relative density	: RCX Reagent RL1200 Wash Reagent	<1 >1
Solubility in water	: RCX Reagent RL1200 Wash Reagent	Not available. Not available.
Partition coefficient: n-octanol/water	: RCX Reagent RL1200 Wash Reagent	Not available. Not available.
Auto-ignition temperature	: RCX Reagent RL1200 Wash Reagent	Not available. Not available.
Viscosity	: RCX Reagent RL1200 Wash Reagent	Not available. Not available.

Section 10. Stability and reactivity

Reactivity	: RCX Reagent RL1200 Wash Reagent	No specific test data related to reactivity available for this product or its ingredients. No specific test data related to reactivity available for this product or its ingredients.
Chemical stability	: RCX Reagent RL1200 Wash Reagent	The product is stable. The product is stable.

Section 10. Stability and reactivity

Possibility of hazardous reactions : Under normal conditions of storage and use, hazardous reactions will not occur.

Conditions to avoid : No specific data.

Incompatible materials : No specific data.

Hazardous decomposition products : Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Section 11. Toxicological information

Information on toxicological effects

Acute toxicity

Product/ingredient name	Result	Species	Dose	Exposure
RL1200 Wash Reagent reaction mass of: 5-chloro-2-methyl-4-isothiazolin-3-one [EC no. 247-500-7] and 2-methyl-2H-isothiazol-3-one [EC no. 220-239-6] (3:1)	LD50 Oral	Rat	53 mg/kg	-

Conclusion/Summary : RCX Reagent Not available.
RL1200 Wash Reagent Not available.

Irritation/Corrosion

Product/ingredient name	Result	Species	Score	Exposure	Observation
RL1200 Wash Reagent reaction mass of: 5-chloro-2-methyl-4-isothiazolin-3-one [EC no. 247-500-7] and 2-methyl-2H-isothiazol-3-one [EC no. 220-239-6] (3:1)	Skin - Severe irritant	Human	-	0.01 Percent	-

Conclusion/Summary

Skin : RCX Reagent Not available.
RL1200 Wash Reagent Not available.

Eyes : RCX Reagent Not available.
RL1200 Wash Reagent Not available.

Respiratory : RCX Reagent Not available.
RL1200 Wash Reagent Not available.

Sensitization

Not available.

Conclusion/Summary

Skin : RCX Reagent Not available.
RL1200 Wash Reagent Not available.

Respiratory : RCX Reagent Not available.
RL1200 Wash Reagent Not available.

Mutagenicity

Not available.

Conclusion/Summary : RCX Reagent Not available.
RL1200 Wash Reagent Not available.

Carcinogenicity

Not available.

Conclusion/Summary : RCX Reagent Not available.
RL1200 Wash Reagent Not available.

Section 11. Toxicological information

Reproductive toxicity

Not available.

Conclusion/Summary	: RCX Reagent	Not available.
	RL1200 Wash Reagent	Not available.

Teratogenicity

Not available.

Conclusion/Summary	: RCX Reagent	Not available.
	RL1200 Wash Reagent	Not available.

Specific target organ toxicity (single exposure)

Not available.

Specific target organ toxicity (repeated exposure)

Not available.

Aspiration hazard

Not available.

Information on the likely routes of exposure	: Not available.
---	------------------

Potential acute health effects

Eye contact	: RCX Reagent	No known significant effects or critical hazards.
	RL1200 Wash Reagent	No known significant effects or critical hazards.
Inhalation	: RCX Reagent	No known significant effects or critical hazards.
	RL1200 Wash Reagent	No known significant effects or critical hazards.
Skin contact	: RCX Reagent	No known significant effects or critical hazards.
	RL1200 Wash Reagent	May cause an allergic skin reaction.
Ingestion	: RCX Reagent	No known significant effects or critical hazards.
	RL1200 Wash Reagent	No known significant effects or critical hazards.

Symptoms related to the physical, chemical and toxicological characteristics

Eye contact	: RCX Reagent	No specific data.
	RL1200 Wash Reagent	No specific data.
Inhalation	: RCX Reagent	No specific data.
	RL1200 Wash Reagent	No specific data.
Skin contact	: RCX Reagent	No specific data.
	RL1200 Wash Reagent	Adverse symptoms may include the following: irritation redness
Ingestion	: RCX Reagent	No specific data.
	RL1200 Wash Reagent	No specific data.

Delayed and immediate effects and also chronic effects from short and long term exposure

Short term exposure

Potential immediate effects	: RCX Reagent	Not available.
	RL1200 Wash Reagent	Not available.
Potential delayed effects	: RCX Reagent	Not available.
	RL1200 Wash Reagent	Not available.

Long term exposure

Section 11. Toxicological information

Potential immediate effects : RCX Reagent Not available.
RL1200 Wash Reagent Not available.

Potential delayed effects : RCX Reagent Not available.
RL1200 Wash Reagent Not available.

Potential chronic health effects

Not available.

Conclusion/Summary : Not available. RCX Reagent
Not available. RL1200 Wash Reagent

General : Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels.

Carcinogenicity : No known significant effects or critical hazards.

Mutagenicity : No known significant effects or critical hazards.

Teratogenicity : No known significant effects or critical hazards.

Developmental effects : No known significant effects or critical hazards.

Fertility effects : No known significant effects or critical hazards.

Numerical measures of toxicity

Acute toxicity estimates

Not available.

Interactive effects : RCX Reagent Not available.
RL1200 Wash Reagent Not available.

Other information : RCX Reagent Not available.
RL1200 Wash Reagent Not available.

Section 12. Ecological information

Toxicity

Not available.

Conclusion/Summary : RCX Reagent Not available.
RL1200 Wash Reagent Not available.

Persistence and degradability

Conclusion/Summary : RCX Reagent Not available.
RL1200 Wash Reagent Not available.

Bioaccumulative potential

Not available.

Mobility in soil

Soil/water partition coefficient (K_{oc}) : RCX Reagent Not available.
RL1200 Wash Reagent Not available.

Mobility : RCX Reagent Not available.
RL1200 Wash Reagent Not available.

Other adverse effects : No known significant effects or critical hazards.

Section 13. Disposal considerations

Disposal methods : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.
