IMPORTANT SDS INFORMATION FOR

Retic- Chex® II

Dear Customer:

The above product is manufactured by Streck and does not contain any hazardous chemicals at concentrations of 1% or greater. Furthermore, this product does not contain any known carcinogens, category one (1) germ cell mutagens, reproductive toxicants, respiratory or skin sensitizers at concentrations of 0.1% or greater. As a result, a Safety Data Sheet is not required [ref. 29CFR 1910.1200 (d) (5)].

Product complies with all applicable regulations of the U.S. Department of Transportation (DOT), and/or International Air Transportation Association (IATA), and does not meet criteria for restricted transport.

Streck's products are classified as *in vitro* diagnostics and regulated by the FDA. Accordingly, all applicable precautions are stated on the product label or package insert that accompanies each product.

Streck suggests you place a copy of this letter in any place you would ordinarily keep an SDS. This step will document your laboratory's compliance with OSHA requirements.
