

General Purpose Drapes

McKesson single sterile drapes deliver optimal protection and performance by creating and maintaining a sterile field during surgery. The single sterile line includes general purpose drapes for use in a broad variety of surgical procedures as well as procedure-specific drapes. The SMS fabric is constructed of three layers of material: spunbond, meltblown, spunbond. The inner meltblown layer provides superior filtering, barrier and strength properties. The spunbond outer layers provide excellent resistance to strike-through, tears, punctures and abrasion. Choose McKesson drapes to protect patients and clinical personnel from the transfer of microorganisms, fluids and particulate material in the operating room.

Features and Benefits

- Made of 100% polypropylene, state-of-the-art SMS non-woven fabric is soft, drapeable and fluid-resistant
- Specifically designed SMS fabric for fluid repellency to reduce strike-through of fluids
- Low-linting SMS fabric properties reduces particle generation—a known source of post-operative complications caused by bacterial transmission or foreign body contamination
- Flame-resistant polypropylene helps prevent ignition risks associated with the use of high-energy medical devices during surgery
- Fan-folded and reverse-folded drape designs with clear instructional stamps promote ease of use, aseptic presentation, and intuitive drape placement
- Individually packaged, disposable design for single sterile use and consistent quality
- Not made with natural rubber latex

Satisfaction Guaranteed

If you are not completely satisfied with any McKesson Brands product, you may return it for a full refund or credit.

Never Compromise on CareSM

With McKesson Brands, you'll never have to compromise. We deliver quality products at competitive prices, backed by our 100% satisfaction guarantee. We have decades of experience in the market, and we offer you support and work to help ensure you have the products you need, when you need them—making it even easier for you to provide the best care for your patients.

The product information contained in this document, including the product images and additional product materials, was collected from various supplier sources. All product claims and specifications are those of the product suppliers and have not been independently verified by McKesson Medical-Surgical or its affiliates ("McKesson"). McKesson is not responsible for errors or omissions in the product information.

The properties of a product may change or be inaccurate following the posting or printing of the product information in the document, either in the print or online version. Caution should be exercised when using or purchasing any products from McKesson's online or print documents by closely examining the product packaging and the labeling prior to use.

Due to product changes, information listed in this document is subject to change without notice. This information is placed solely for your convenience in ordering and McKesson disclaims all responsibility for its completeness and accuracy, whether or not the inaccuracy or incompleteness is due to fault or error by McKesson.
